PRACTITIONER INSTRUCTIONS · REMOVE BEFORE GIVING THE FORM TO A CLIENT

Using the feedback form

Ask about the client experience without turning a feedback form into a health-outcomes survey or a marketing-consent form. Keep participation voluntary.

Customization and quality check

A no-name form is not automatically anonymous if the platform records identity or logs. Describe the actual collection method. Never condition a benefit on positive feedback. Do not convert feedback into a health-effect claim or publish it without a separate process.

Scope

The form asks about booking, communication and the session experience only. It is not a health-outcomes survey or a marketing-consent form, and feedback is not permission to publish a testimonial.

Customization checklist

- ☐ Replace every shaded **[bracket]** field with your practice details, or delete the line.
- ☐ State the return method: completed forms come back only through the channel your practice designates, never to HolisticHealer.net.
